

The Royal Canadian Regiment Canadian Active Service Force, 1939-45 Honours and Awards

The source documents for this Honours and Awards list were discovered in the Archives of The Royal Canadian Regiment Museum (RCRM). Four honours lists with differing amounts of detail were consolidated along with details from an assembled book of citations and related documents. These were, compared with the awards noted in Volume Two of the regimental history (Stevens, 1967), and then cross-referenced with other sources to provide a review of the lists and their contents. The honours and awards citation cards in the military records managed by *ancestry.ca* were used to confirm and update the list. The original RCRM archive documents included no indication of dates of preparation, the sources used to prepare them, or their provenance.

It should be noted that the consolidated list includes the names of some Royal Canadians who received their listed honours while serving with other units or formations.

Notes:

- Where a service number appears along with an officer's rank, it indicates a commission from the ranks and listed awards may be for service before or after commissioning.
- When earlier or post-war awards were identified in the citation cards at *ancestry.ca*, these have been included along with the year of award.
- Units listed show where a recipient was not serving in the overseas battalion at the time of the award, service records should be consulted to confirm all units a recipient served with.
- London Gazette issue numbers are as found on the citation cards. In some cases it may be that these reflect the original Gazetting of the award and a published citation may be in a later edition.
- Canada Gazette details include the issue number and the date.
- When noted on the citation cards of other sources, the number of the related Canadian Army Routine Order (C.A.R.O.) has been included.

A second list follows identifying those Royal Canadians who were are known to have been recommended for awards which were not received.
